

GLENGUIN ESTATE

2007 PROTOS CHARDONNAY

Vineyard ; Protos comes from 3.5 acres of sandy loam over clay behind the big dam at Glenguin. Our chardonnay clone is "Mendoza" famous for small berries and loose bunches which assists the handpicking.

Vinification ; Protos is made following classic Burgundian traditions including whole bunch pressing and barrel fermentation with natural vineyard yeasts only.

The Wine ; Whole bunch pressed, natural yeasts and extended lees contact have led to the development of nutty aromas and citrus fruit characters, with a rich creamy mouthful of flavour, in a wine of real depth and power. This is simply our best Chardonnay so far! 200 cases made.
